## Mobile Dental Service

### Making your life easier!

We are a team of highly educated and fully qualified dental professionals, committed to quality patient care and continuing professional education.

As an example of how our Mobile Dental Service works, this is a typical workflow of what we do:

1. Initially we will provide a free clinical dental examination for the patient, followed by a Detailed Dental Report to be emailed out to the family, including any quotes if needed.
2. This is then followed up a few weeks later, with a personalised follow-up call from our dedicated dental mobile coordinator to go over the report and answer any questions or concerns. This will help the family, to better understand the report and any proposed treatment.
3. Once consent is given, we can then organise further dental treatment as per proposed by the treatment plan.
4. The initial clinical examination and any follow-up dental treatment will all be conducted at the Nursing Home for the convenience of the all involved.

5. As part of our mobile dental service, our highly trained staff will also organise fun educational activities about healthy diet, good oral hygiene, brushing demonstration etc.

### **Kooweerup Dental / Mobile Dental Service:**

Our passion is good dental health for life and our philosophy is to impart our passion and knowledge onto every-body in our local community.

We believe our Mobile Dental Service will be able to cater for the wide and diverse needs of our local community.

Kooweerup Dental offer very reasonable fees for both surgery and mobile dental services. We will provide a detailed quote before any treatment is carried out. For your convenience we have the ability to claim Veterans Affairs, Private Health Insurance rebates and eftpos, including over the phone payments and cash.

**With our Dental Health Care program, we aim to break down the barriers.**

*Does your loved one or parent deserve to spend their last years of life comfortable dentally??*

*Is there pain in your loved-one's mouth, through poorly fitting dentures, gum disease or broken teeth??*

**Be assured you are in very capable hands with Kooweerup Mobile Dental. We provide outstanding dentistry to each and every one of our patients.**

There are many dental diseases that affect our aging population, most are very simple to rectify. Here at Kooweerup Dental we look at every angle. We believe that carer and staff education will go a long way, in the prevention of such issues.

**At Kooweerup Dental, we believe prevention is better than cure!**

**To enquire about Kooweerup Dental or Kooweerup Mobile Services, simply contact Mobile Dentistry Co-ordinator Christine on**

**03 5997 1280**

We are very happy to organize and hold Oral Health Educations sessions for both staff and hands on family members.
