

KOO WEE RUP DENTAL SURGERY

Mobile Dental Service

Making your life easier!

We are a team of highly educated and fully qualified dental professionals, committed to quality patient care and continuing professional education.

As an example of how our Mobile Dental Service works, this is a typical workflow of what we do:

1. Initially we will perform a Comprehensive, Dental Examination for the child /patient. This will be at No Cost to You. The Examination will be followed by a Detailed Dental Report which will be sent out to the parents/guardians, including any quotes if needed.
2. This is then followed up a few weeks later, with a personalised follow-up call from our dedicated dental mobile coordinator to go over the report and answer any questions or concerns. This will help the parents/guardians to better understand the report and any proposed treatment.
3. Once parental consent is given, we can then organise further dental treatment as per proposed by the treatment plan.
4. Presently the government provides a Medicare scheme – CDBS, to all eligible children aged between 2 and 17 years old, unfortunately for many children, this program is not being utilized to its full potential. Each eligible child has \$1000 available for any required Dental treatment, if

eligible this renews every two years. We can check eligibility, and then help parents/guardians' access this.

We believe our Mobile Dental Service will be able to cater for the wide and diverse needs of our local community.

Kooweerup Dental offer very reasonable fees for both surgery and mobile dental services. We will provide a detailed quote before any treatment is carried out. For your convenience we can claim Veterans Affairs, Private Health Insurance rebates, Medicare CDBS, eftpos including over the phone payments and cash.

We are here to help to make it happen!

5. The initial clinical examination and any follow-up dental treatment will all be conducted at the School/Child Care Centre/Nursing Home/private residence for the convenience of the patient involved.
6. As part of our mobile dental service, our highly trained staff will also organise fun educational activities about healthy diet, good oral hygiene, brushing demonstration etc. Each child/patient will take home a show bag of goodies and handy tips to help them to remember what they have learnt!

Kooweerup Dental / Mobile Dental Service:

Our passion is good dental health for life and our philosophy is to impart our passion and knowledge onto everybody in our local community.

With our Dental Health Care Program, we aim to break down the barriers.

Be assured you are in very capable hands with Kooweerup Mobile Dental Services.

Unlike some mobile dental services on the market that use dental hygienists with much less dental knowledge, and limited scope of dental treatment provided, we are a dedicated team of fully qualified dental practitioners, able to provide all aspects of dental treatment.
